

# Emissions Discussion Group Closeout

November 6, 2003

# Emissions Discussion Group Closeout

## ● Objectives

- List new or revised projects to cooperate/coordinate on – Tom & Laura
- List Remaining Issues / Action Items – Laura & Tom
- Review Communications and Organization - ALL

# Emissions Discussion Group Closeout

- **Projects to cooperate/coordinate on in 2004**
  - **CERR – states/RPOs to communicate with EPA about what to expect up through May 2004, around July - EPA to summarize which jurisdiction submitted what EI sector data, and issues identified**
  - **Emissions Projections**
    - **Coordination across RPO “lines”**
    - **Cost input data**
    - **Methods**
    - **BART Rule**
    - **Results of §812 Study**

# Emissions Discussion Group Closeout

## ■ Remaining Issues / Action Items –

- Closure on Ammonia EI improvements (MWRPO, EPA, WRAP)
- Issue Wildfire RFP
  - Need CENRAP representative on steering committee
  - Need Canada / Mexico Wildfire (+other fire) EIs
  - Consider how to disperse U.S. gap-filled and Mexico/Canada fire emissions
  - Timing for inclusion in 2002 NEI - Phase I preliminary, Phase 2 final
  - RPOs need to consider use of Wildfire EI data from across RPO boundaries
- Point source controls/costs and additional technical data
- Area source data for 2002 CERR submittals – zero means zero, not missing
- Implementation of Data Exchange Protocol and model-ready files

# Emissions Discussion Group Closeout

- Communications, Content and Organization
  - Approach for next Inter-RPO technical meeting
  - Next call first Wednesday of the month, 12/3 1100 AM Eastern
  - 2004 Discussion Group Leaders
